Hello,

Thanks for contacting Thorlabs Technical Support. Here is a link to the manual for the ZFS motor in particular for reference: www.thorlabs.com/_sd.cfm?fileName=ETN013372-D02.pdf&partNumber=ZFS25B. This does include some information on the motor, however, unfortunately we cannot support use of our motors for use with 3rd party controllers sadly.

Hope this helps, please let us know if you need any further information.

Regards,

Joseph Wiggins

Subject: Manual request

Hi,

I purchased this motorized stage yesterday Sale Order TS2634444-1

https://www.thorlabs.com/newgrouppage9.cfm?objectgroup_id=8656&pn=LNR25ZFS#8657

I plan to drive it with a bipolar driver I own thus would benefit from the manual and also how much current I should use.

Thanks in advance,

Eric
